- [Digitunity](#): donating is easy and our technology donation platform will help guide you through the process

- [human-I-T](#): securely wipes devices of sensitive data, refurbishes and updates them, and provides them to local community organizations and individuals who lack access to technology

Business Donations

Why should businesses donate their technology devices?
Join the ranks of numerous companies that are fulfilling their corporate social responsibility by using an Information Technology Asset Disposition (ITAD) organization to turn their donated technology into social good. Without the generous donations of businesses, hundreds of thousands of individuals wouldn't have the technology needed to gain employment, pursue education and/or follow their passion. The technology devices donated by businesses can also benefit numerous causes when distributed to other 501(c)3 non-profits.

Information Technology (IT) Asset Disposal:
- Services the US & Canada
- Tailored logistical options such as:
    - Local pick-up, prepaid shipping labels, freight shipping, white-glove pack & ship
