

Net Inclusion ²⁰₂₄

Hosted by National Digital Inclusion Alliance

The Net Inclusion conference has been a staple in the digital inclusion community since 2016, bringing hundreds of practitioners, advocates, academics, internet service providers, and policymakers together to share their knowledge and discuss:

- Local, state, Tribal, and federal policies impacting digital equity
- Sources of financial and programmatic digital inclusion support
- Digital inclusion best practices from across the country

Net Inclusion 2023 was our largest conference yet, and 2024 promises to break all those records.
