In addition, there are three staff in our Broadband and Digital Equity group working part time on digital inclusion related work:

Brenda Tate: Does outreach and assists individuals with eligibility determination and sign-up for low-income internet programs. Also works on the Access for All free cable broadband program of organizations providing technology access and/or skills training.

James Moore: Part time staff who assists organizations signing up for free cable broadband (Access for All program)

Alice Lawson: Managing the Building for Broadband program and helping low-income and other building owners/managers plan for infrastructure that enables competitive and lower cost broadband.
