

EBB is Now the Affordable Connectivity Program

Here is what changes in the EBB program mean for you

Starting in 2022, the Emergency Broadband Benefit (EBB) program will transition to a new program called the Affordable Connectivity Program (ACP). This means there is now a long-term program to help you afford broadband.

I am currently enrolled in the EBB and receive broadband benefits. What do I do now?

- You will be automatically enrolled into the ACP program to continue your benefits.*
- *Households that qualified for the EBB because of job loss or furlough since February 29, 2020 or by meeting the eligibility criteria for a participating provider's COVID-19 program will need to reapply after 3/1/22.
- The benefit amount is changing from up to \$50/month to up to \$30 month beginning 3/1/22. For people on tribal lands, the benefit amount will stay the same at \$75 per month.

Are you receiving broadband benefits? Learn more about changes to the program:
