

DIGITAL INCLUSION TEAM

Established in 2021, the Digital Inclusion team is responsible for City of San Antonio's overall digital inclusion strategy. The team coordinates and collaborates with internal and external stakeholders on initiatives and projects that involve a focus on digital infrastructure, access to devices, and digital literacy.

The Digital Inclusion Team, consisting of an Administrator and Coordinator, in the Office of Innovation is the focal point for the City's expansion of broadband throughout the city. This team plays a critical role in implementing a community-wide digital equity strategy. Building from the Digital Inclusion Roadmap, Connected Beyond the Classroom, in collaboration with the SA Digital Connects' executive director, the team coordinates, expands, and implements digital equity projects that support the goal of bringing affordable, reliable, high-speed broadband to anyone that wants it in San Antonio.

STAFF

Digital Inclusion Administrator: Vacant

Digital Inclusion Coordinator: Leigh Middleton (leigh.middleton2@sanantonio.gov)
