### General Summary

Responsible for the overall coordination of the Door County broadband / FTTP initiative called FiberNet which is based on a County infrastructure engineering Assessment Report. FiberNet requires managing the interaction between all stakeholder groups to coordinate and develop the broadband fiber network in Door County. Requires coordinating the strategic planning to ensure the development and implementation of cost-effective network that will meet future needs of residents and businesses of the County. Coordinates County government related broadband initiatives, grants and relationships. Responsible for providing truthful and accurate written and verbal communications.

### Duties and Responsibilities

**Essential Functions**

1. Support and establish the vision of the Door County FiberNet.
2. Coordinate the implementation of fiber broadband throughout the County, where economically feasible.
3. Work with Internet Service Providers (ISPs) in implementation of FiberNet.
4. Build partnerships by working with various stakeholders like the FCC, WPSC, and WPS.
5. Help local communities in project development, grants and implementation in collaboration with the Door County Broadband partners.
6. Assist the ISPs in clearing roadblocks to funding, construction, provide support and coordination for public private partnerships and assistance with grant funding and reporting as the project develops.
8. Maintains awareness of emerging optical networking and wireless technologies, and provides consultation to the Committee.
9. Maintain awareness and monitor status federal and state broadband-related grants and loans.
10. Develops the annual budget and the 5-year capital budget for Door County FiberNet.
11. Provide elected officials (local, county, state and federal) with education relative to broadband issues facing Door County, and the status of broadband deployment efforts in the county.
12. Represents the county in regional and state fiber network, FTTP and broadband groups, organizations and committees as directed. Interacts with the media as required.
13. Build partnerships, collaborate, and coordinate and track activities and policies across all County department related to Digital Equity.
14. Support the Digital Inclusion network in documenting and sharing on the ground insight and expertise, facilitating collective learning about innovative best practices and raising awareness about digital equity efforts in the community.
15. Lead a team of volunteers, consultants and community members in strategic planning processes to develop and implement the County's Digital Equity Action Plan, a living strategic plan that outlines strategies, activities, deliverables, metrics, budgets and timelines for addressing digital inequities in the community.
